

# ASTRÉE

**Design by**  
Benjamin Graindorge

**Description**  
In this floor lamp there is something of the archetypal luminous object. Like the Little Prince contemplating the stars, Benjamin Graindorge tells us of his pristine globe : "I wanted it to float". Defying the laws of gravity, it is very delicately suspended by a strap in the shape of the figure 8, which in itself is evocative of the infinity symbol.  
Floor lamp with plain ball-shaped glass shade. Base in Carrara marble Ø 40 cm thickness = 25 mm; stem in 16 mm bent steel tubing, finished in Epoxy satin white lacquer RAL 9016. Round shade Ø 12cm in mouth-blown opal glass houses the LED bulb. Transparent PVC cable; transparent foot-operated switch. 13 W E 27 LED bulb 1,140 lumens, colour temperature 3,000 K (warm white).
