

ATACAMA

Design by
Gregor Korolewicz

Description

A poetic table lamp: a luminous sphere in opaque mouth-blown glass sitting on a solid walnut base, sculpted in relief, is evocative of the moon hanging over a desert-like surface – perhaps a lunar landscape, or an arid one eroded by the wind, such as the Atacama Desert in Chile. The manual dimmer enables one to simulate the progressive rising or setting of the moon over the desert landscape of a planet. The shade in opal mouth-blown glass consists of 3 layers for optimum light diffusion. This table lamp comprises a sphere of matt opal mouth-blown glass Ø 12 cm fixed to a rectangular base (22.5 x 15 cm) in solid walnut, the upper face of which is machined in 3D. Black PVC cable. Black manual switch/dimmer. Supplied with 1 x 3.7 W G 9 220 V LED bulb, colour temperature 3,000 K (warm white), 390 Lumens.

THIS LIGHT IS SOLD WITH AN ENERGY CLASS A++ BULB. IT IS COMPATIBLE WITH BULBS FROM ENERGY CLASSES A++ TO E.
