

CANCAN

Design by
Patrick Zulauf

Description

Cancan is an amused glance at optimistic 1950s, playing the refined restraint of its pleated white cotton shades against the simple prettiness of its stems, which appear to undulate like reeds in the wind.

Floor lamp with structure in tubular steel Ø 14 mm and base Ø 30 mm finished in Epoxy satin black lacquer. Equipped with 3 shades in pleated white cotton. Black textile cable and foot switch. Supplied with 3 x 12 W E 27 LED standard bulbs, colour temperature 2,700 K (warm white), 1,000 Lumens. Not available in 110 V.

THIS LIGHT IS SOLD WITH ENERGY CLASS A+ BULBS.

IT IS COMPATIBLE WITH BULBS FROM ENERGY CLASSES A++ TO E.
