

# L'IMPREVU

**Design by**

Marie Christine Domer

**Description**

L'Imprévu is a settee which offers various depths and individual, adjustable backrests of various heights. This diversity of dimensions enables one to easily create 'conversation' corner groups, most notably when two settees are set at an angle to each other. When pushed together and linked they offer a sleep area of 160 x 200 cm. This capacity to suit all kinds of situations is unique. Each settee is a landscape with a strong character, with its seat, backrests, cushions ; it is possible to use r different covering materials, which again reinforces its multiplicity of character.
