

MURTOLI

Design by
Christian Werner

Description

Large Outdoor settee, the comfort of which makes use of all our Indoor expertise. A broad 240 x 120 seat platform, made from fibreglass slats and ultra-flexible foam, mounted on a matt black aluminium base and covered in a water-repellent cover. The seat cushions, foam and wood, protected by a water-repellent liner and a non-slip outdoor fabric, have a particular shape, with two different slopes, which makes possible a "lounger" position or a more "seated" one. As with Prado, these seat cushions enable each user to find their ideal position.

Technical Specifications

CONSTRUCTION

Structure of seat: mechanically-soldered frame.
Structure of backrest cushion: panel of particleboard.

COMFORT

Suspension via polypropylene slats reinforced with fibreglass.

The seat is composed of high resilience polyurethane Bultex foam (38 kg/m³ – 3.6 kPa and 38 kg/m³ – 2.8 kPa). The back cushion is composed of high resilience polyurethane Bultex foam (42 kg/m³ – 4.8 kPa and 26 kg/m³ – 1.4 kPa) clad in ultra-flexible foam (45 kg/m³ – 1.8 kPa). Its interior is fitted with an anti-slip system.

The bolster is made from high resilience polyurethane Bultex foam (26 kg/m³ – 1.4 kPa).

MAKING-UP

Inner liner made from water-repellent fabric to guarantee water-resistance (including back cushion and bolster). Covers quilted with 110 g/m² polyester. Baguette stitching and twin-needle stitching on seat and back cushions; baguette stitching on bolster. Covers may be removed by a professional.
