

JUNGLE

Design by
M.-A. Stiker-Metral

Description

The Jungle rug represents a jungle of palm trees in which trunks and fronds melt into a figurative, poetic abstraction, marked by softness and false naïveté. An exercise in innocence, from the jungles of Paradise on the way to perdition, at a time of ecological alerts which raise awareness amongst our society with every passing day.

Hand tufted rug in 100 % wool composed of both looped and shaved sections. Fresh, mainly pastel hues. Please allow for a tolerance of +/- 3 % in terms of length and width.
