

# TOGO

**Design by**  
Michel Ducaroy

**Description**  
A collection of all-foam cushion seating with no hard points. Its characteristic design will fit into both traditional and contemporary furnishing styles.

**Technical Specifications**  
**CONSTRUCTION**  
Entirely composed of 3 different densities of foam (polyether foam 21 kg/m<sup>3</sup> – 3.2 kPa & 28 kg/m<sup>3</sup> – 4.8 kPa; high resilience polyurethane foam 26 kg/m<sup>3</sup> – 1.4 kPa).

**MAKING-UP**  
Its oversized covers are generously quilted with polyester. Although the covers can theoretically be removed by a professional, we strongly recommend that this model be the object of a 'dec/rec' (recovery) service at our factory to guarantee a perfect fit.

**COMFORT**  
Elasticity of foams reinforced by buttoned threads. Soft but supportive comfort. The corner seat is particularly enveloping.

**COVERING MATERIALS**  
Plain or printed fabrics are acceptable. Canvas and leather are recommended.

**QUALITY**  
Polyether foams of the highest quality. Generous use of polyester quilting.
